Tour Itinerary

1 : Join Us:

On Freedom as we cruise the calm, sheltered waters of Hervey Bay to Platypus Bay near K'Gari (Fraser Island) and the Great Sandy Marine Park. This area serves as a playground for humpback whales as they journey south to Antarctic waters. Our expert skipper and crew provide informative and engaging commentary about whale behaviour throughout the tour. We guarantee whale sightings and guests are interested to learn about the changes in the population during the season. In July, playful juvenile whales are the first to arrive, followed

by the larger adults in August, giving visitors an appreciation for the whales' majestic size. During September and into October, mothers and calves make their appearance, creating unforgettable memories that showcase why Hervey Bay stands out as a premier whale-watching destination.

2 : We're proud:

Of our outstanding reviews, especially the compliments about our onboard dining. We serve morning tea, a delicious lunch and afternoon tea, offering a point of difference on our cruise. We aim to create a relaxing, memorable experience, knowing many guests have traveled far for this bucket-list adventure. With only one trip per day, we can take our time, allowing for an unhurried experience with plenty of opportunities to admire the whales and breathtaking

scenery. Guests can enjoy complimentary tea, coffee, and filtered water throughout the day, with additional snacks and drinks available for purchase at our licensed bar. Freedom has three toilets, a comfortable air-conditioned saloon and plenty of room to move around the boat to see the whales wherever they pop-up!

3 : Along with:

Multiple whale sightings, you may also encounter dolphins, turtles, and sea birds, all against the stunning backdrop of K'Gari's western beaches. Freedom Ecotours operates with a strong commitment to environmental responsibility, ensuring the safety and well-being of both our marine creatures and our valued guests.
