Here's a review of our Cradle Mountain walking tour that gives a good sense of what to expect from a passengers perspective:

"Had our day trip to Cradle Mountain from Hobart with The Derwent Experience recently! It's incredibly rare to find tours starting from Hobart as most begin from Launceston so we were lucky that Sam's offering such tours. It was lovely meeting him as well, an incredibly friendly and warm-hearted guy!"

3 : Some Other Reasons Why The Derwent Experience is a 10/10

The private hire bus is extremely clean and sleek. Comes with reclining chairs plus USB ports to charge your phones.

□ Food options are amazing! We stopped at Deloraine for both our brunch and dinner - first at Mumma Buzz Cafe then dinner at Empire Hotel.

□ Sam's a seasoned & safe driver, so you're definitely in good hands as he takes you through the winding yet scenic roads towards and back from Cradle Mountain walking tour to Hobart.

4 : Book Your Cradle Mountain Day Trip From Hobart

The fantastic thing about this Cradle Mountain walking tour is that the bed you wake up in can also be the same bed that you sleep in that night. The best part is that you only have to take what you need for the day. Yes, it is a big day, but a private tour is quite simply the ideal way to experience Cradle Mountain from Hobart.

5 : Why Travel & Spend The Day With Us?

Over the past few years, Sam has taken groups to Cradle Mountain from Hobart for day trips on behalf of other companies whilst also focusing on my own Derwent Valley tours and experiences. It is not an easy place to get to from Hobart, often being a day stop on a much larger trip. But here's the thing...

Sam has lots of energy, loves driving, and believes that a big day to Cradle Mountain is the best way to appreciate Tasmania's natural beauty and make the most of a single day.

6 : Your Safety

Safety is our top priority, driving there and back from Cradle Mountain to Hobart. You will be asked to sign a waiver at the group briefing upon arrival at the Cradle Mountain Visitor Information Centre, and prior to boarding the shuttle bus that takes us down to Dove Lake. Weather conditions on the day will be absolutely front of mind, and the fact that conditions can change quickly will be discussed. We are not a walking, hiking or guiding service, and while we carry the necessary public liability insurances, we primarily offer this as a transport service for you to access Cradle Mountain National Park from Hobart.

The Driver will accompany the 'slowest' members, or the least confident members of the group and will provide communication backup and basic first aid if required. It is absolutely paramount that individuals who choose their own trails return at the designated time so that the group can leave together on time and we all get back to Hobart at a reasonable hour, typically 8-9pm.
